Fund Performance

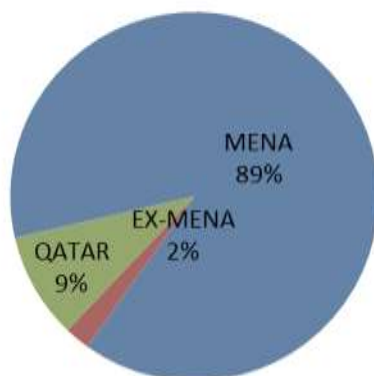

In November, the Fund increased by c.0.5% MoM; since Inception the Fund is up by c.2.3% and Year-to-Date the fund is up by c.2.2% while focusing primarily on capital preservation as well as robust yield generation.

The Fund achieves diversification by investing in a basket of quality sukuk with various maturities, various risk/returns, yield and rating profiles, from a variety of issuers globally. Investors should be aware that an investment in the Fund involves a high degree of risk. The Fund is suitable only for investors who fully understand and who can bear the risks of such a high risk investment for an indefinite period and who can afford a total loss of their investment.
